Ready to buy?

Visit chain.com.au to purchase online now with delivery Australia wide.

As with our entire [marine range](#), Bow Shackles are available for both retail and wholesale sales, and can be conveniently collected from our Melbourne factory or delivery can be arranged Australia wide.

Shackles are a versatile connecting link for [wire rope](#), [chain](#), and are an essential tool for [lifting](#), [rigging](#) and pulling.

Bow shackles are similar to anchor shackles, both have a larger, rounded 'O' shape appearance. Generally, a bow shackle has a larger, more defined 'bow' area in comparison to an anchor shackle. The shackle's rounded design takes loads from various directions and handles a larger strap. This type 316 stainless steel shackle is 'marine grade', which contains molybdenum making it resistant to corrosion. Ideal for use in extreme conditions, and environments subject to ocean spray, mist or high chloride.

Looking for a particular shackle to suit a job? [Contact us](#) to request a product specific to your requirements.
